

Coronavirus Relief Fund Spending Data at PandemicOversight.gov

5.18.2021 UPDATE

The PRAC has released updated data for Coronavirus Relief Fund (CRF) spending, which now covers data from March 1, 2020 through March 31, 2021.

The U.S. Department of the Treasury made available \$150B in Coronavirus Relief Funds (CRF) to states, eligible local governments, Tribal governments, the District of Columbia, and the U.S. Territories (i.e., prime recipients).

Prime recipients must submit quarterly reports on sub-recipient spending for greater than or equal to \$50k. For expenses less than \$50k, prime recipients report total amounts by funding type (e.g., grants, contracts, loans). A total of 785 prime recipients received \$149.5B in CRF. Out of those recipients, 760 each received at least \$150k and must report under the CARES Act.

760

prime recipients each received at least **\$150k** in CRF and must submit spending data reports

included in the PRAC's dataset

not yet included in the PRAC's dataset

693

prime recipients reported spending information totaling **\$149.2B**

80,201

sub-recipients received **\$136.4B**

67

prime recipients either did not submit a report or their submission was returned for data corrections

FUNDS SPENT*

\$125B

FUNDS UNSPENT**

\$24.5B

* The data visualizations on PandemicOversight.gov include prime recipient data for Tribal governments; however, funds distributed to Tribal sub-recipients is not yet publicly available.

** All funds must be spent no later than December 31, 2021, to be covered by CRF.
